

IJNA Index of Authors (Articles and Notes, with a selection from News, Conference Reports, and Letters). I have reproduced the full titles, with occasional additional explanatory information in square brackets. Authors are listed alphabetically, with multiple works by one author listed chronologically; then joint-authored works listed alphabetically by second author (multiple works with the same second author are sorted chronologically); then multiple-authored works listed alphabetically by authors.

Note that the back-issues available on the Blackwell website are listed by year, not by volume or issue number.
